Agenda

Filippo finished his task regarding the autocomplete dropdown. Matteo also created the component for the Empty Fridge Screen. Alexa showed the team the onboarding screens that she designed, and everyone agreed to implement them. Furthermore, Sydney showed the design for the Empty Fridge Screen page, which Matteo will implement. Stephen provided the corrected file for the English translation, which is going to be integrated into the app.

Overall, everyone is happy with the current state of the project. We discussed starting to think about the final presentation and gathering information from food banks by contacting or visiting them.

All the tasks that were scheduled the week before were completed.
